

**Residential Real Estate Activity Report
2001 Edition**

The Minneapolis Area Association has published monthly and annual housing sales reports since 1960. The scope and detail of reports have expanded over time as home sales have grown throughout the region and computer technology has provided us with more reporting options.

Early reports only included property sales in Minneapolis and western suburbs. Some previous reports combined all sales together in a category called "all property types." Even today, the report does not distinguish between existing home sales and new construction reported to MLS.

During most of the 1990's this report included only single family detached homes. Beginning in the year 2000, single family has been defined as single family detached, condominiums, townhouses and twin homes. Sales from the previous years have been recalculated back to 1997 using these criteria.

This information is published on our web site at www.mplsrealtor.com.

This report relates to single-family residential properties only. This includes condominiums, townhomes, and townhouses, but does not include duplexes, apartment buildings, other multi-family dwellings, lots, raw land, or commercial properties.

Closed Sales - The time periods designated on the reports for closed sales refer to the periods during which listings were reported sold, not necessarily when they actually closed.

Pending Sales - The pending listings counts are based on when listings actually entered the pending status.

NOTICE

Average and median sale prices are included in portions of this report. According to Webster's Dictionary a median is "a value in an ordered set of values below and above which there is an equal number of values which is the arithmetic mean of the two middle values if there is no one middle number." An average is determined by dividing the total dollar volume by unit number.

DIVISION II

Includes Dakota, Scott [and some areas in Goodhue, LeSueur and Rice] Counties and the district changes made in 1995.
