

# 2004 Residential Real Estate Activity Report

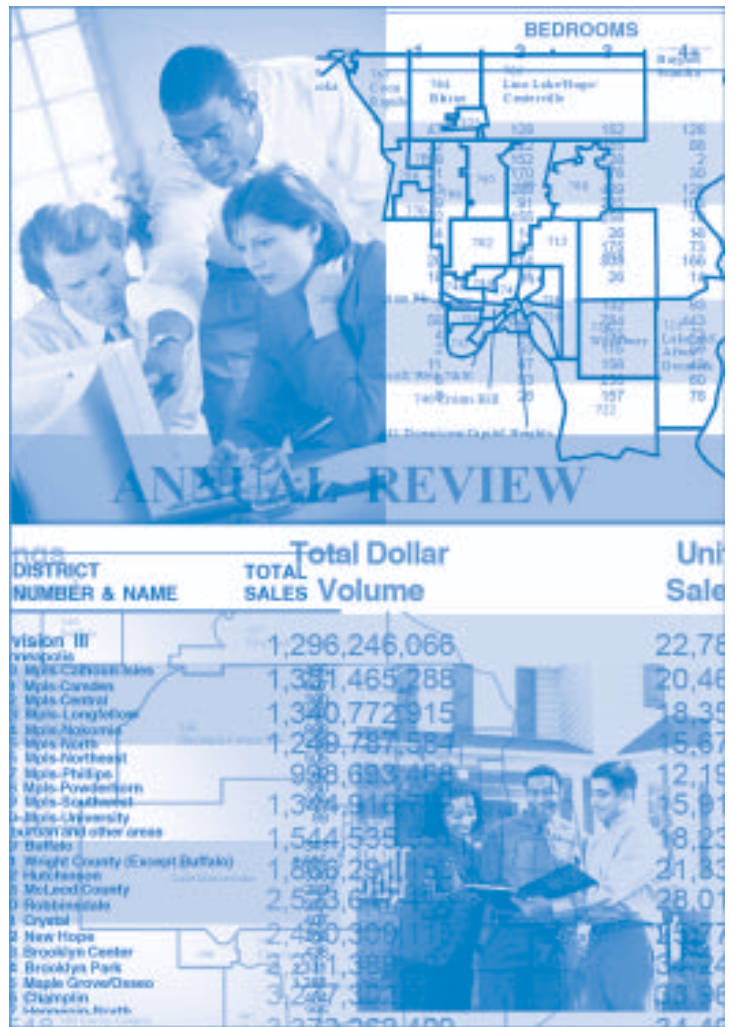

A publication of the Minneapolis Area Association of REALTORS®

The Minneapolis Area Association of REALTORS® has published monthly and annual housing sales reports since 1960. The scope and detail of reports have expanded over time as home sales have grown throughout the region and computer technology has provided us with more reporting options.

Early reports only included property sales in Minneapolis and western suburbs. Some previous reports combined all sales together in a category called “all property types.” Even today, the report does not distinguish between existing home sales and new construction reported to MLS.

During most of the 1990s this report included only single family detached homes. Beginning in the year 2000, single family has been defined as single family detached, condominiums, townhouses and twin houses and the report only includes sales reported from the 13 county metropolitan area.

This information is published on our website at [www.mplsrealtor.com](http://www.mplsrealtor.com).

### NOTICE

Average and median sale prices are included in portions of this report. According to Webster's Dictionary a median is "a value in an ordered set of values below and above which there is an equal number of values which is the arithmetic mean of the two middle values if there is no one middle number." An average is determined by dividing the total dollar volume by unit number.
